BUILDOUT LINES

Build Out Lines (BOL):

- The spirit of this rule is to encourage the U7- U10 teams to learn how to play the ball forward from the first third. Traditionally keepers have been able to just punt the ball across the midway line which was a detriment to the players learning how to progress the ball forward from defense to midfield to the attackers.
- When the goalkeeper has the ball in his/her hands during play, the opposing team must move behind the BOL.
- Once the opposing team is behind the build-out line, the goalkeeper can release the ball by passing the ball with their feet, (NOT dribbling), throwing, or rolling the ball to any teammate.
- It is the keeper's decision if they decide to play the ball early. The goalkeeper releasing the ball from possession does not have to wait for the opposing players to move behind the build-out line if there is an advantage for his/her team. After all players are behind the BOL, the keeper has 6 seconds to release the ball.
- PUNTS, BOUNCING the ball, and DROP KICKS are not allowed from the keeper. The penalty for this is an indirect kick for the opposing team at the spot of the offense.
- Once they've moved behind the BOL, the opposing team may re-cross the BOL and resume play as normal after the goalkeeper (1) drops or places the ball to dribble or pass, (2) releases possession of the ball by rolling the ball, or (3) releases possession of the ball by throwing the ball.
- On Goal Kicks, the ball is live once it is kicked.
- SUMMARY: The ball is live once it is released by the keeper.
